

Day 1 Group Work

Case study: Applying ethical principles

Instructions:

1. Each group member should describe a project they are working on or are planning to conduct.
2. Group to select one study and discuss how ethical principles were applied to the study.
3. Prepare bullet points for plenary.
 1. Briefly describe the study including methods.
 2. Highlight how ethical principles are applied to the study.

If time allows, proceed to discuss a second project
